

**76/62 SUPER RAPID
120 rds/min LIGHT WEIGHT NAVAL GUN MOUNT
with NEW CONTROL CONSOLE**

The Oto Melara 76/62 Super Rapid Gun Mount is a lightweight, rapid-fire naval gun providing unrivalled performance and flexibility in any air defence and anti surface role, particularly in anti-missile role.

Capability of very effective engagement of shore based targets is also provided for unique multirole performance.

This system is intended for installation on ships of any type and class, including small naval units.

Interface to any ship's Combat Management System and/or Electro-Optical Director is provided, according to digital as well as analogical standard, including Corba protocol.

The Firing rate can be selected between single shot and 120 rds/min.

In operational condition the standard deviation at firing is less than 0,3 mrad, thus providing excellent accuracy.

The 76/62 Super Rapid (beside 76/62 Compact) is the only market available medium calibre naval gun capable of sustained firing, which is a fundamental requirement in any scenario involving the simultaneous engagement of multiple manoeuvring target, as requested by the emerging asymmetric warfare.

Automatic loading is provided through a revolving magazine and rapid reloading is easily undertaken even during firing action.

Standard supply includes a new digital control console (NCC) with possibility of additional functions.

The 76/62 SR Naval Gun Mount is compatible for operating the new 3AP Multifunction Programmable Ammunition as well as the DART guided ammunition.

An optional dual feeding device, stealth shield, muzzle velocity device and other functionalities can be provided upon request.
